## Snow Plowing Description

### Snow Plowing Pricing

Our pricing for each storm is done per push (per visit). Plowing will be begun at 3-4" with a base price of \_\_\_\_\_ for the initial visit. If you would like us to come for a storm smaller than 4", please contact us and let us know for each storm. Each additional visit is a \$25 charge. If you have a particular time that you request vehicles to be able to leave the driveway during a storm, please fill it in here: \_\_\_\_\_

### Snow Plowing Description

Snow plowing does not mean 'bare pavement' and icy/slippery conditions may exist after plowing. We recommend that vehicles to be removed from the driveway so that we can offer the best possible snow removal. If vehicles cannot be removed, please line up vehicles to one side or park as close together as possible before our arrival.

### Ice-Melt Description

Ice-melt application is a service that we offer free to our customers. If you leave ice-melt by your door for us, we will apply it as a free "Thank you." Please be aware that even if ice-melt is applied, slippery conditions may still exist.

### Shoveling Description & Fee

If contracted on, we will shovel steps and walkways. Shoveling is a charge of \$20 per storm, regardless of snow accumulation.

### \* Disclaimer

MCM Pool Service will not plow within 2 feet of any parked vehicles, equipment, or any obstructions. We are also not liable for damage to lawn, or property due to snow clearing. Please attempt to remove obstructions prior to our arrival. MCM Pool Service will not be liable for damage to pavement or any other surfaces contracted for snow clearing. MCM Pool Service assumes no responsibility for slip and fall accidents or vehicular accidents as a result of slippery conditions. This is the case even when ice-melt has been applied.

## - Snow Plowing Description -

### Boundry Markers

It is highly recommended that customers allow use of driveway markers. If customer refuses the use of markers, his/her property lines will be unknown to the plow operator. If we are contracted prior to snowfall, we will install markers at no cost to you. If we are hired after snow has fallen, please mark off your driveway lines, sprinklers, etc. Anything that will be hidden under snowfall and/or could be an unseen danger should be marked off.

### Payment

Customers will receive invoices either by eMail or home mail box, 3-5 days after each weeks end. Payment is due in full within 7 business days of receiving the invoice. If payment is overdue, plowing will not resume until payment has been received. We accept cash, check, or credit card (Visa, Discover, MasterCard). If you would like your card info to be held on a secure server (we are PCI DSS Compliant) for the ease of payments, we do have that option available. If the customer is in contract, but does not want automatic service for a particular storm, they may contact MCM Pool Service to opt out of that storm.
